LACRUZ® was founded in 2006 by Mr Andrea Cruzzolin and has become an important reference point in the viticulture sector.

It grounds its roots in long experience and tests in a territory where the wine culture has ancestral origins. Its constant innovation and improvement of know-how in the technological and mechanical field and the endless research of new materials have set the basis for the creation of products intended for improved efficiency in this sector and for those using them.

LACRUZ® offers a wide range of products: spare parts, accessories for harvesting, binding and trimming, batteries, pruning shears, besides the sale/rent of grape harvesters.

Our high-quality after-market parts represent an alternative to the genuine products.

Rapidity and availability are demanded by customers and they have become the principles at the basis of our service, to face and cope with an even more global challenge.

LACRUZ®, a registered trademark since 2017, is looking into the future by expanding its business to new markets, heading to an international dimension, rich in useful exchanges and experiences.

Andrea Cruzzolin established himself as the first producer of after-market parts for grape harvesters in Europe. Well-known at a global level, LACRUZ® was established in 2006 and became a registered trademark in 2017. The compatible spare parts by LACRUZ® represent a good alternative to original spare parts.

Reliable, tested and low-priced products: these are the distinguishing features of LACRUZ® range.

A team of experienced technicians identify the needs of the market, develop projects and moulds and select the most appropriate materials to manufacture parts, whose performances are constantly improved thanks to the feed-back of the market.

Ongoing investments in the research and development department lead to manufacturing innovative and future-oriented solutions with the highest quality standard.

LACRUZ® mechanics and experts of grape harvesters, take care of the service of the second-hand machineries and grape harvesters and are able to offer competent advice for any kind of technical request.

In the presence of said impediment, the Parties shall be required to communicate it without delay.

Similar communication shall be provided as soon as the event that caused the impediment shall cease. In case of omission in the above communication, the defaulting party shall be required to compensate for any damage caused.

Defects or flaws in the goods, not recognizable through diligent verification, shall be reported in writing to the Seller, via certified e-mail (PEC), under penalty of forfeiture, within 8 (eight) days of discovery thereof, and in any case not beyond the above warranty period. Any claims shall specify precisely the defect found; the goods disputed shall always be made available to the Seller's agents for verification thereof.

Any disputes within the terms and in the manner described above shall not result in contract termination, but at the Seller's discretion, in the repair or replacement of defective products, if it is not verified that the flaws/defects are attributable to Buyer.

In this case, if the Seller nevertheless decides to carry out the repairs/replacements, they shall not be understood as recognition of the flaw and will therefore be charged to the Buyer. Except in cases of wilful misconduct or gross negligence, the foregoing excludes any other liability of the Seller however originating from the goods supplied or from resale thereof. In particular, compensation and/or indemnities for damages, direct or indirect, of any nature deriving from the failure or limited use of the goods may not be claimed.

Any disputed goods shall be sent back free of charge to the Seller's address and accompanied by a specific return document. The costs and risks of transporting both defective goods and repaired or replaced goods shall be the responsibility of the Buyer.

The Buyer declares to have been informed in the purchase proposal / sale contract of the status of the goods purchased. The Buyer also declares to take note of the fact that any conformity defects may be referred to the age of the goods and to agree that conformity defects shall not include defects due to normal wear, lack of maintenance and failure to comply with the indications provided by the manufacturer regarding the use and maintenance of the goods.

The Seller shall not provide any warranty for neglect, tampering (additions or removals of components, interventions carried out by unauthorized personnel), negligence in the installation or installations carried out in areas not compliant with the specifications communicated by the Seller, improper use of the goods, negligent conservation thereof, normal wear, force majeure or unforeseeable circumstances. The Seller declines all responsibility for any damages, directly or indirectly, to people or things as a result of failure to comply with all the

provisions indicated in the specific documentation accompanying the goods, where required by law, and in particular that concerning notices regarding installation, use and maintenance.

Any claims regarding a single delivery shall not release the Buyer from the obligation to collect the remaining quantity of goods provided for in the purchase proposal / sale contract or from other purchase proposals / sale contracts signed.

10. PAYMENTS

Payments shall be made exclusively to the Seller under the conditions agreed or referred to in the purchase proposal / sale contract. The agreed payment terms are peremptory and may only be changed following a written agreement between the parties. Changes granted by Seller's agents shall be ineffective unless approved in writing by the Seller.

It is understood that any claims or disputes shall not entitle the Purchaser to suspend or in any case delay the payments of the disputed goods, or those included in other purchase proposals / sale contracts. More generally, no action or exception may be carried out or opposed by the Buyer until after full payment of the goods for which said dispute or exception is raised.

The Buyer is not authorized to make any deduction from the agreed price (ex. in case of alleged defects of the goods), unless previously established in writing with the Seller.

In the event of delayed payment at the agreed deadlines, the Buyer shall be charged the interest on arrears provided for by current legislation.

Upon intervention by third parties, in particular on the occasion of foreclosures of the supply of goods, the Buyer shall immediately send a written communication to LaCruz, and notify third parties in relation to the ownership reserve of LaCruz.

11. OWNERSHIP RESERVE

The Seller shall be expressly entitled to the ownership reserve for all goods covered by the purchase proposal / sale contract until the Purchaser has fully paid to the Seller any amounts due for principal, interest and any other amounts due for any reason or in any capacity depending on this sale.

From the delivery date, the Purchaser shall be responsible for the risks and consequences deriving from any damage, theft, fire, fortuitous events or force majeure, damages to people or things, and the Purchaser, despite the occurrence thereof, shall respect all the agreed obligations and payment methods.

The Buyer undertakes not to transfer or modify the goods, even in part, without the express consent of the Seller. The Buyer also undertakes to keep them in a good state of conservation. The Buyer also acknowledges to the Seller the right to verify the state of conservation of the goods until full payment thereof.

If the parties have agreed on payment by instalments, failure to pay within the agreed terms even a single instalment the amount of which exceeds one-eighth of the sale price shall give the Seller the right to consider the contract terminated. The Buyer shall be required to return the goods and the Seller shall have the right to retain, by way of indemnity, any instalments paid up to that time, except for the right to act for compensation for greater damage.

If the amount of an unpaid instalment shall be less than 1/8 of the total price, the Seller shall have the right to act for fulfillment and/or inhibit any further use of the good sold and/or act in execution for the same good or other goods of the Buyer.

If the Seller does not wish to resort to the foregoing, it may terminate benefit of the term for the Buyer. In this case, the Buyer shall be required to immediately pay the entire agreed price.

12. RETURN OF GOODS

The Seller shall not accept returns of goods unless previously authorized by the same in writing. Any returns shall in any case be intact (not dismantled), packaged (possibly in the original packaging) and accompanied by a return note, and the Buyer shall be responsible for all costs and risks.

If the Purchaser shall not comply, even only in part, with one of the general conditions established for the sale, as well as in case of ascertained difficulty in payments or solvency guarantees or, more generally, its economic capacity shall diminish or no longer be available, the Seller shall have the right to suspend or cancel current orders, or to subject the delivery of goods to the provision of adequate payment guarantees. In the event of order cancellation, any delivered and unpaid goods shall be returned to the Seller intact and without any alteration at the Buyer's expense within 5 days of the communication. Any delay in returning the goods shall automatically entail, in addition to returning the goods, the application of a penalty equal to 5% of the amount of the sale for each day of delay and in any case not less than 20% of the value of the goods resulting from the invoice.

Unless agreed in writing, no compensation shall be accepted between any receivables claimed by the Buyer with respect to the Seller and any payables of the Buyer, in any capacity whatsoever.

14. PRODUCT CONFORMITY IMPROVEMENTS AND MODIFICATIONS

The conformity of the goods / products with the samples shown for illustrative purposes and/or illustrations in the price lists, catalogs or similar documents shall not be guaranteed. In particular, the aesthetic aspect of products may differ
